Practical 8: JQL & Filters

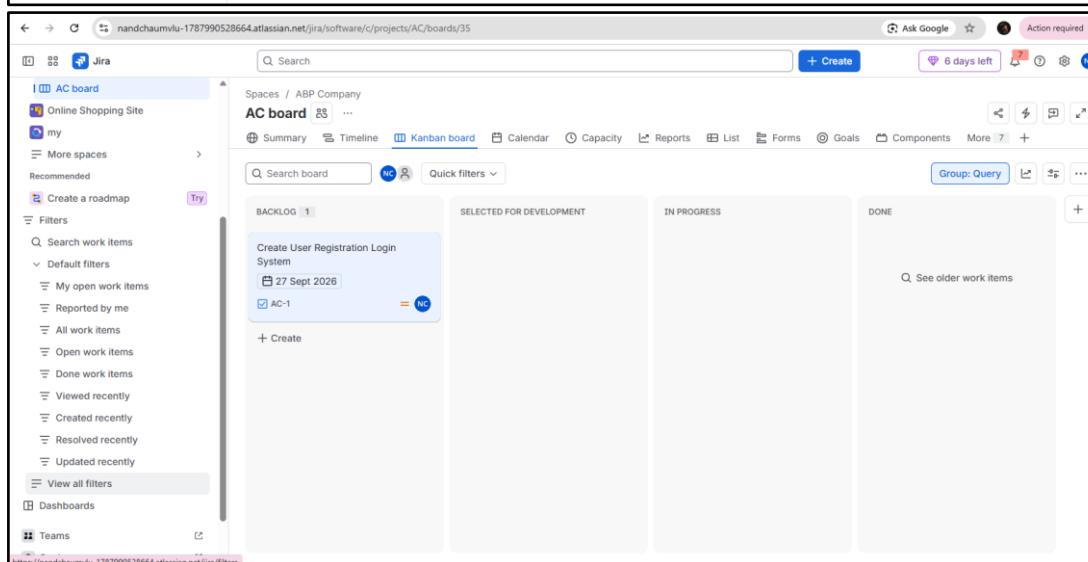

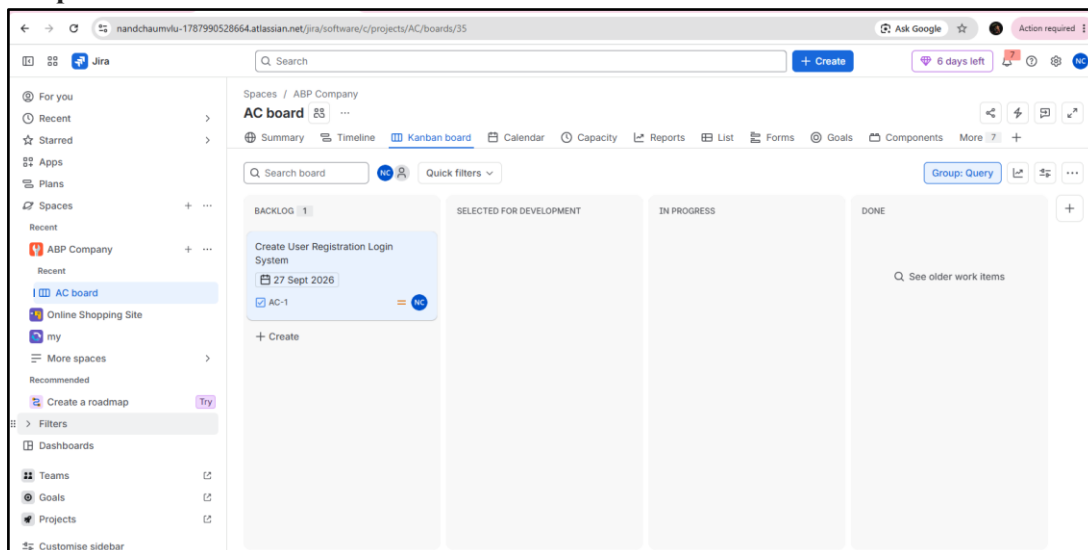

A. Write basic JQL queries (Status, Assignee, Priority).

B. Create and save filters.

Steps:

- 1.Open the Jira project and go to Issues → Search for issues.
- 2.Switch to Advanced Search and enter the required JQL query, such as **status = "To Do"**, **assignee = currentUser()**, or **priority = High**.
- 3.Click Search and check whether the displayed issues match the selected conditions.
- 4.Click Save as and enter a suitable name for the filter.
- 5.Save the filter and open it from the Saved Filters section to verify the search results.
- 6.The saved filter can be reused later to quickly view issues matching the same JQL conditions.

Output:-

This screenshot shows the Jira AC board for the 'AC board' project. The board displays a single issue, 'AC-1 Create User Registration Login System', assigned to Nandini Chaudhari. The issue is in the 'Backlog' status and has a priority of 'Medium'. The board is filtered by 'Space = ABP Company'. The left sidebar shows the project structure, including 'AC board', 'Online Shopping Site', and 'my'. The top navigation bar includes 'Jira', 'Search', and 'Create' buttons.
