Practical I

Roll No.:T006	Name:Nandini Chaudhary
Class:TYIT	Batch:01
Date of Assignment:29-08-2026	Date/Time of Submission:29-08-2026

Practical 1: Jira Setup & Project Creation

A. Create a Jira Cloud account and explore the dashboard.

Steps:-Open Google and search for Jira. Open the Jira website to begin the setup.

Steps:-Click on Google. Enter the required email/account details and click Continue to create or access your Jira account.

Where your teams and AI come together

Your site

This site name is just a suggestion. Feel free to change to something your team will recognize.

Continue

Steps:-Complete the account creation process by following the instructions displayed on the screen.

Create your account

Email address
chetanai.research@gmail.com

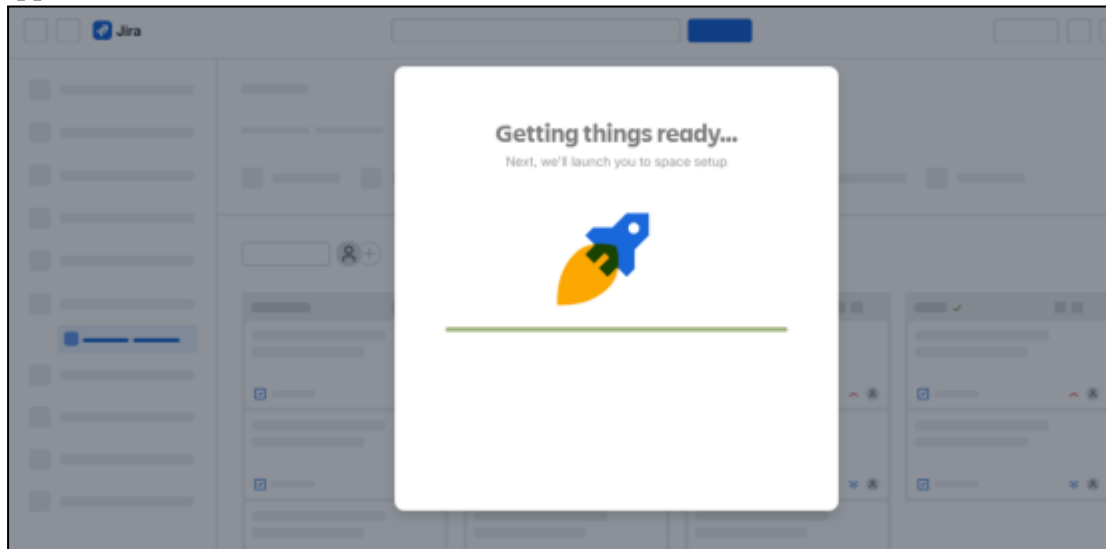

Full name
Chetana Tanavade

Continue

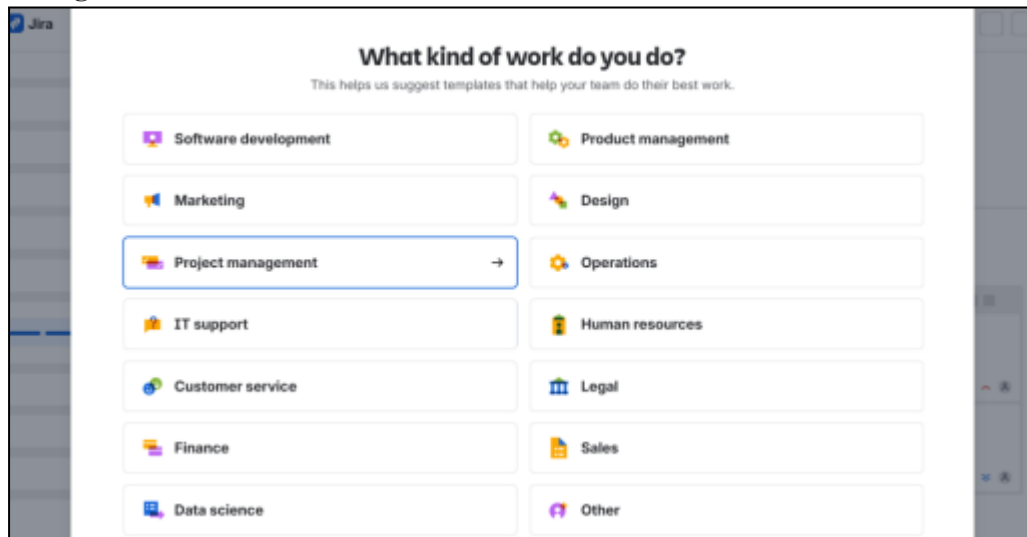

By creating an account, I accept the Atlassian Cloud Terms of Service (T) and acknowledge the Privacy Policy (P).

Already have an Atlassian account? [Log in](#)

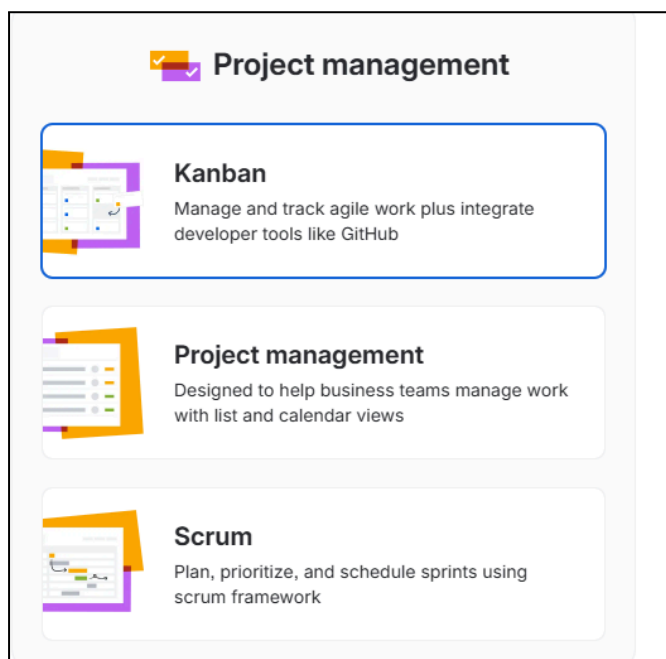

Steps:-Wait for Jira to complete the initial setup. The Getting things ready screen will appear.

Steps:-Select the type of work you want to manage. For this practical, select Project management.

Steps:-From the available project-management templates, select the required template that is Kanban and click Next.

Steps:-

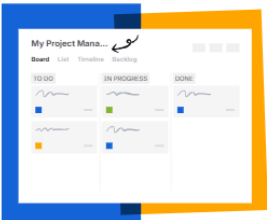

Enter a suitable name for your space/project in the Name your space field.

Name your space

This is where you'll help your team track progress, stay organized, and manage tasks.

Name your space

Example space names:

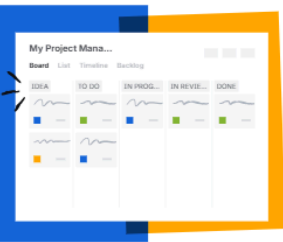

Steps:-Select the appropriate method for tracking your work and click Next.

How do you track work?

As you complete work, it moves through these statuses.

Don't worry, you can change these later.

Steps:-After this select the type of work – click next.

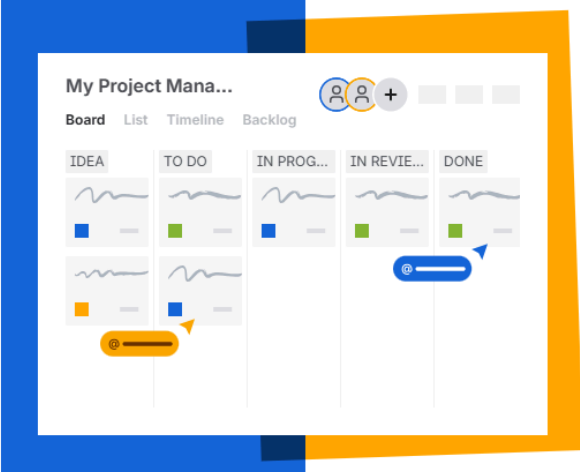

Jira's better when used together

Jira works better with your team onboard. Invite a teammate to try it out with you.

Steps:-After completing the setup, the Jira Dashboard will appear. The dashboard provides access to your projects and work.

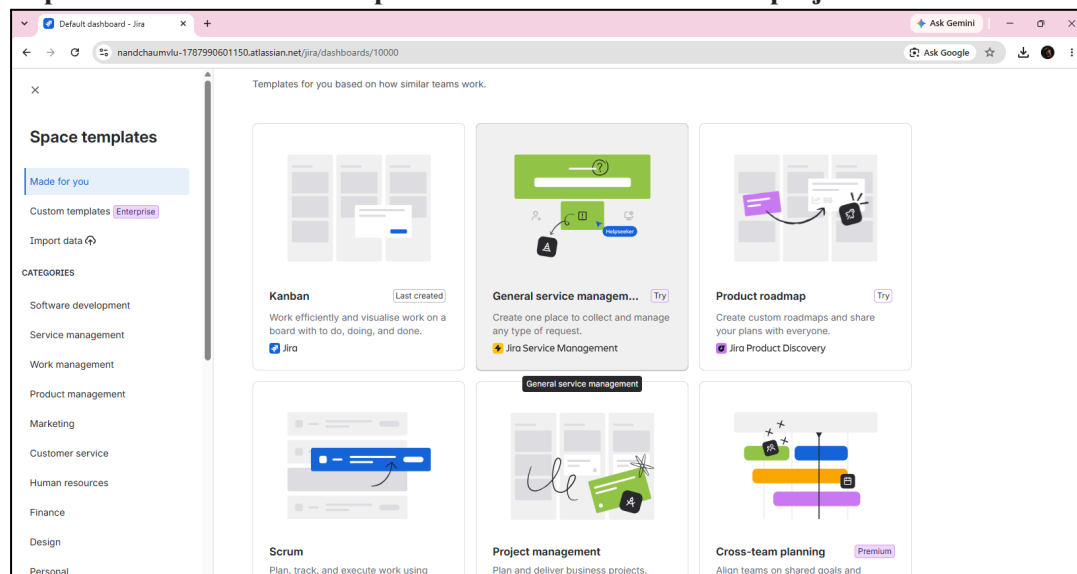

B. Create a Company-managed Scrum/Kanban Project.

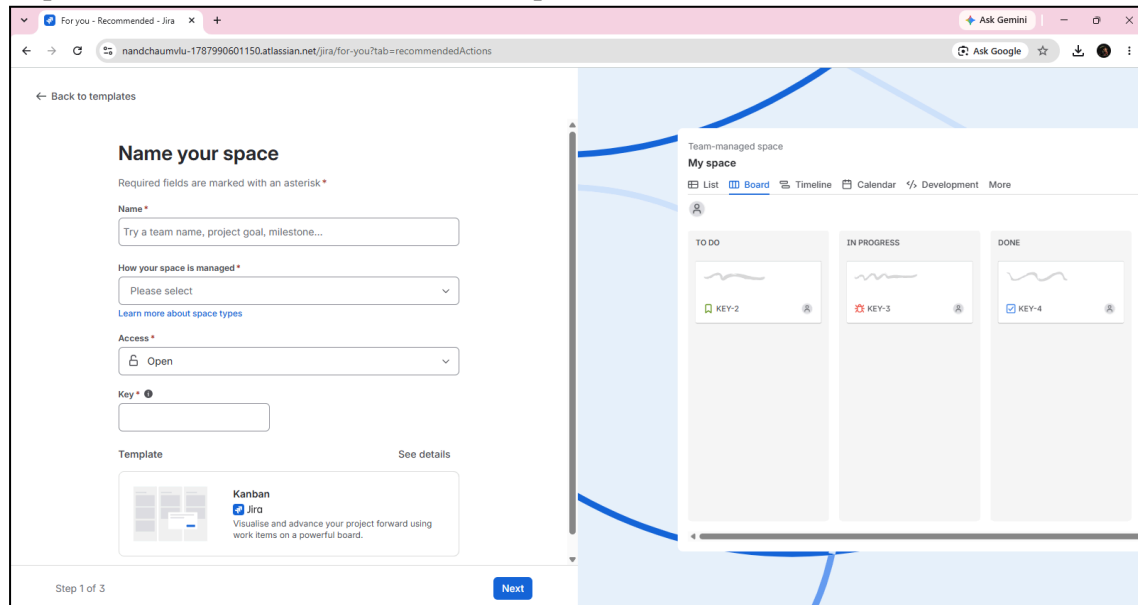

Steps:-From the Jira navigation menu, click Spaces (+) to create or access a space.

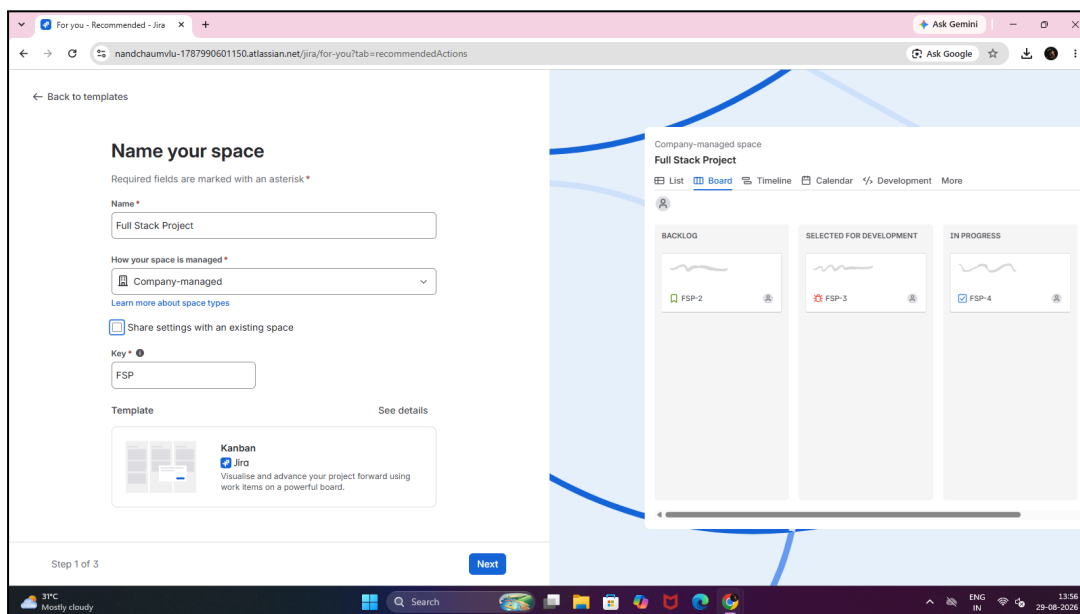

Steps:-Select the Kanban template to create a Kanban-based project.

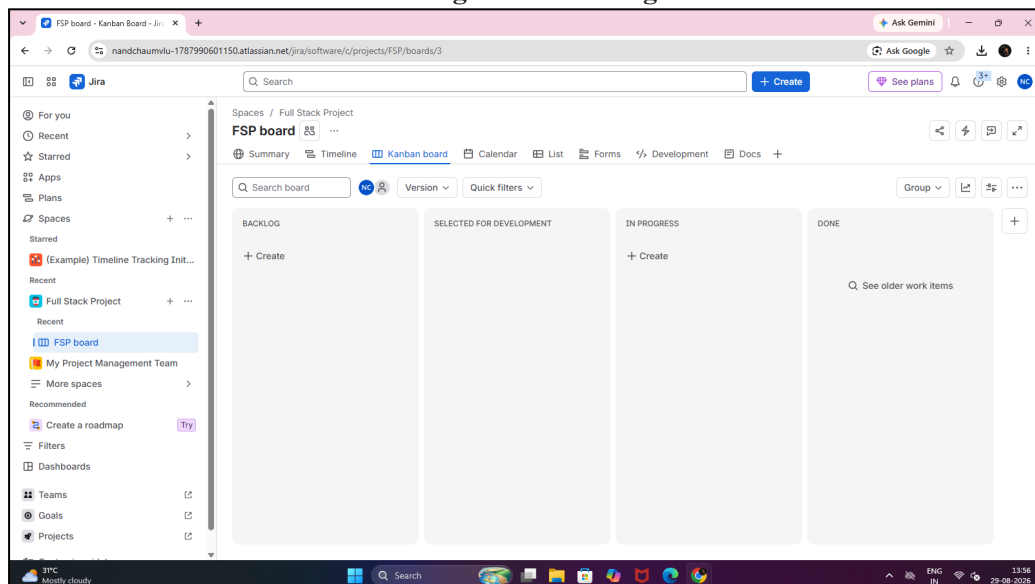

Steps:-Select Kanban and click on use template

Steps:-Enter the required Space Name and provide the necessary details such as, select Company-managed in space managed option and then click next

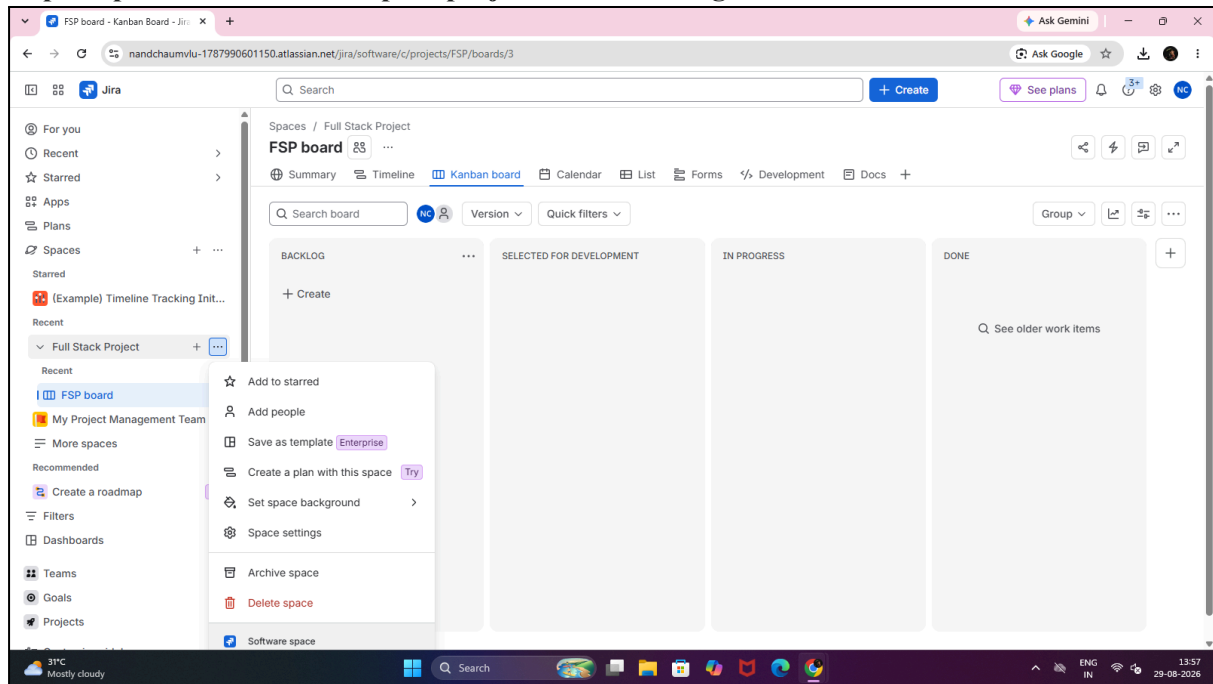

Steps:-After completing the setup, the Kanban Board will appear. The board can be used to create and track tasks through different stages.

C. Configure project details

Steps:-Open the created Jira space/project from the navigation menu.

Steps:-Click Space settings to access and manage the configuration options of the Jira space.
