Practical V

Roll No.:T006	Name:Nandini Chaudhary
Class:TYIT	Batch:01
Date of Assignment:09-09-2026	Date/Time of Submission:09-09-2026

Practical 5: Workflow Customization

A. Design a custom workflow

Steps:-

Open **Workflow**.

Click **New/Create Workflow**.

Enter workflow name.

Click **Add Status**.

Add **New**.

Add **In Progress**.

Add **Under Review**.

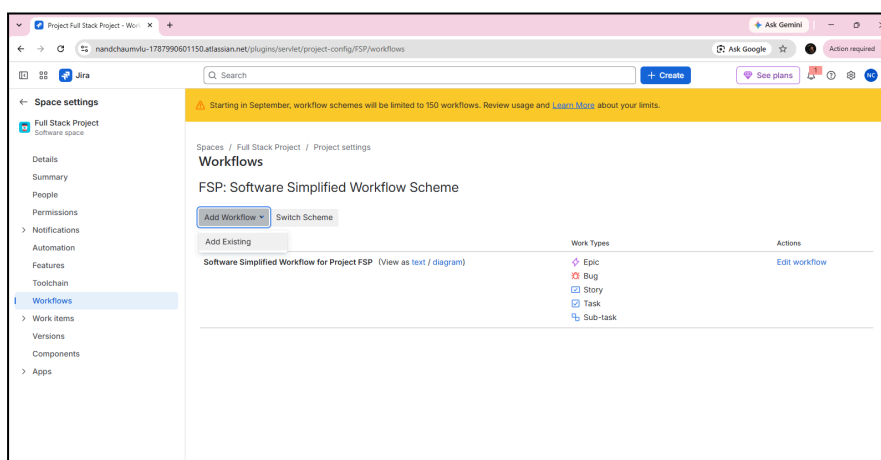

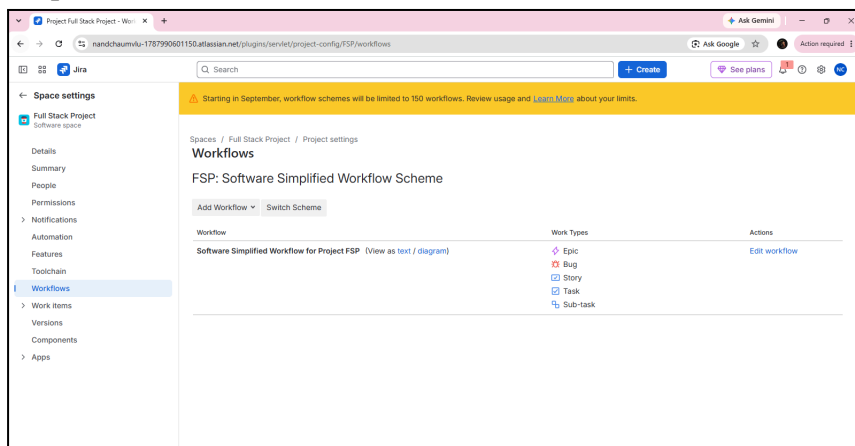

Add **Approved**.

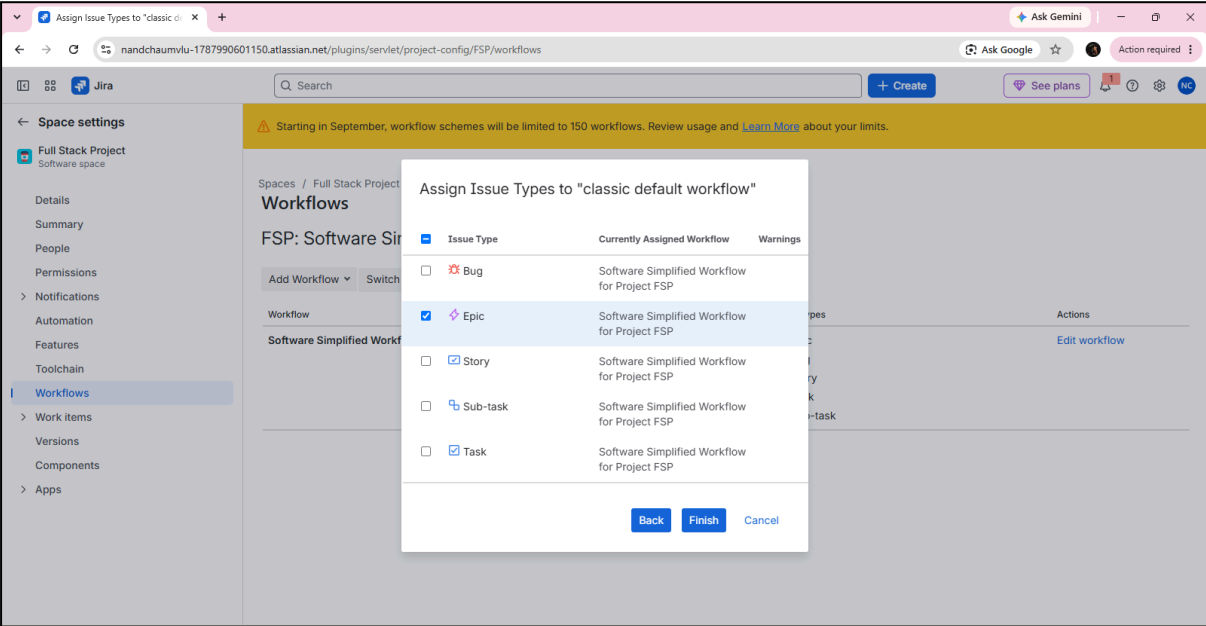

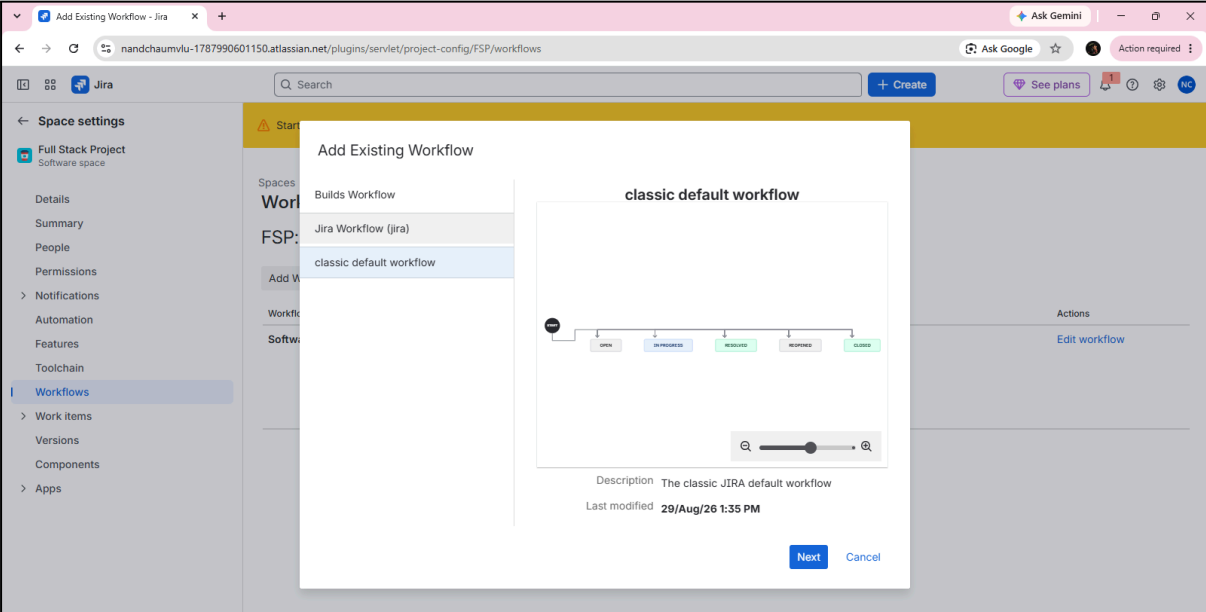

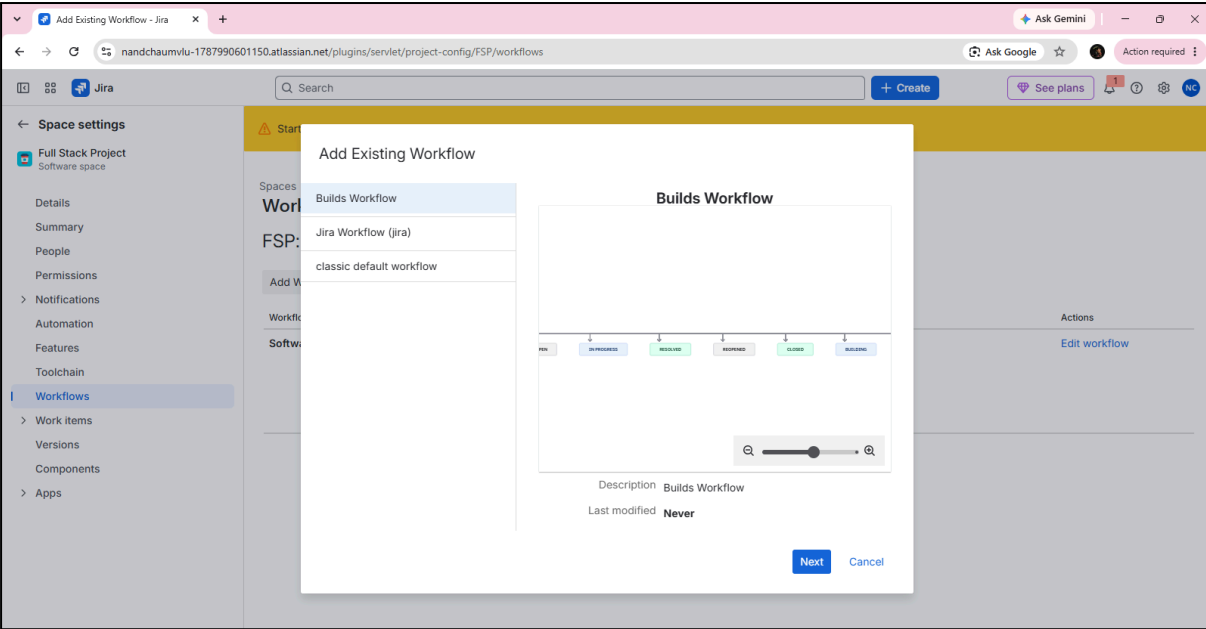

Add **Rejected**.

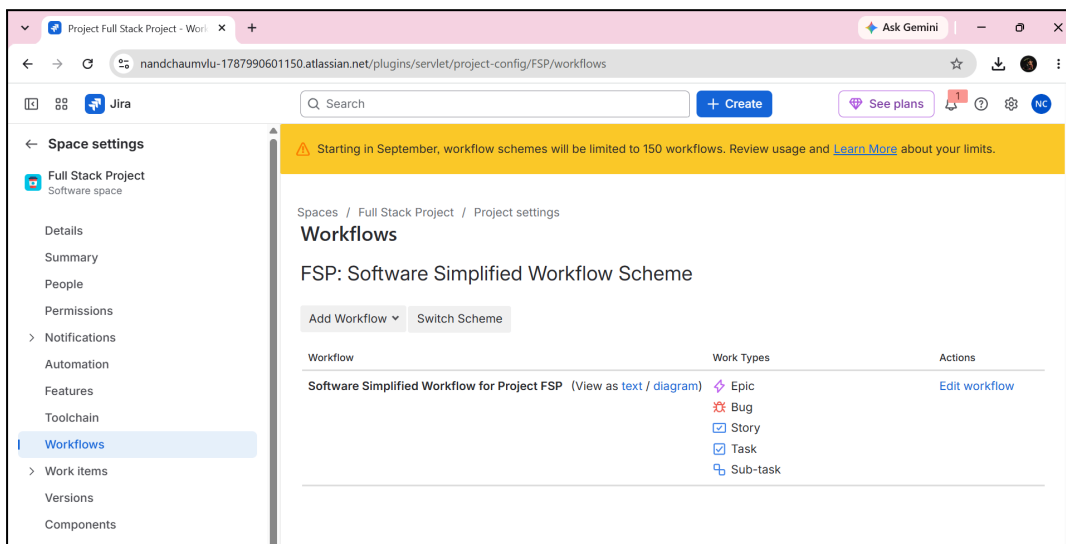

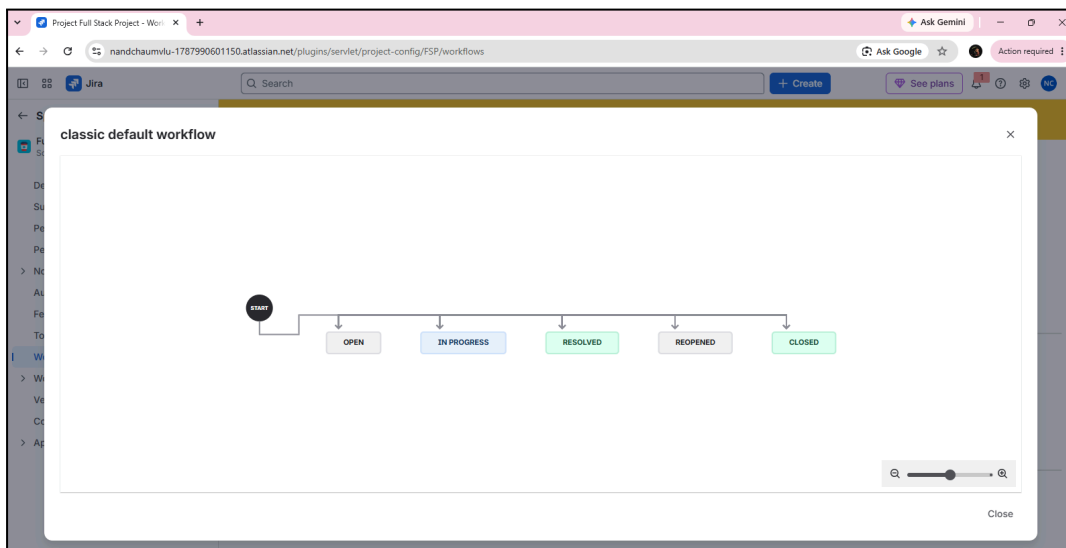

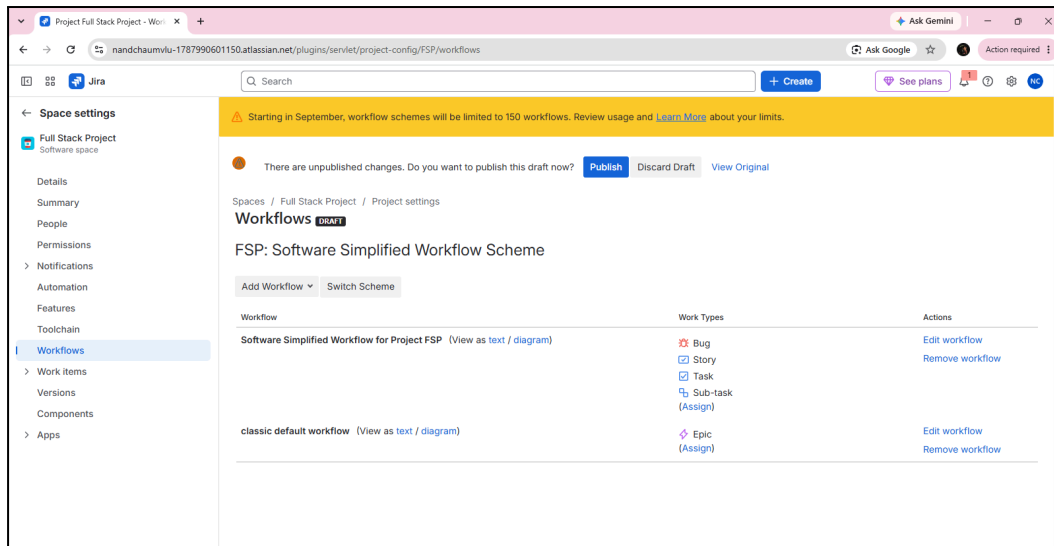

Add **Completed**.

Click **Save**.

Output:-

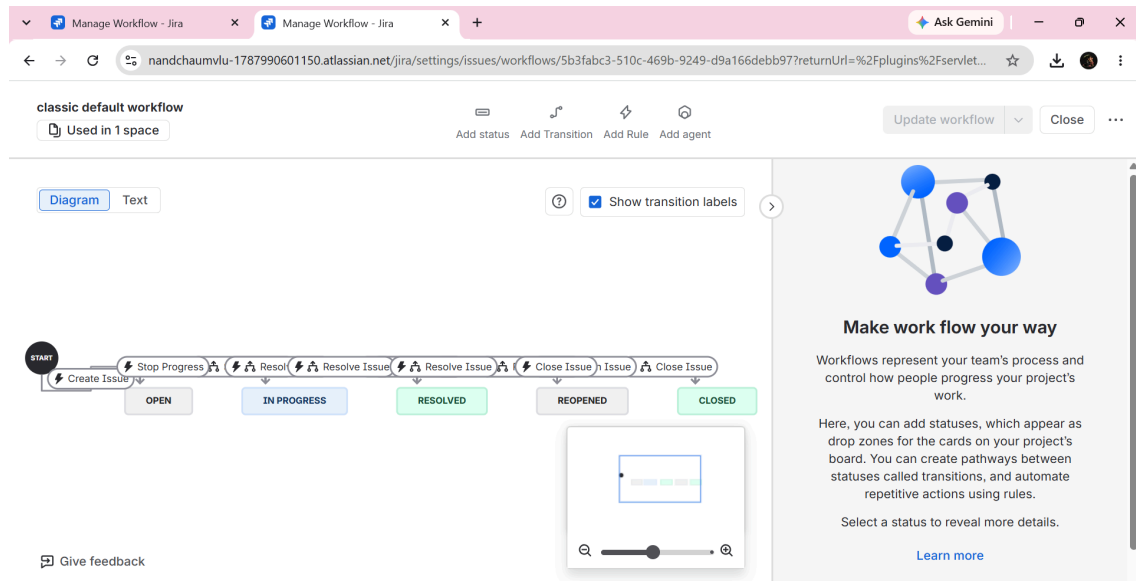

B. Add transitions and conditions.

Steps:-

1. Select **New**.
2. Add transition → **In Progress**.
3. Select **In Progress**.
4. Add transition → **Under Review**.
5. Select **Under Review**.
6. Add transition → **Approved**.
7. Add transition → **Rejected**.

8. Select **Approved**.
9. Add transition → **Completed**.
10. Add required **Conditions**.
11. Click **Save**.

Output:-

The screenshot shows the 'Create transition' dialog box. It contains the following fields and options:

- From statuses ***: A dropdown menu with the text 'Select from status'.
- To status ***: A dropdown menu with the text 'Select to status'.
- Name ***: A text input field with the placeholder text 'Give your transition a name'.
- Buttons**: 'Cancel' and 'Create' buttons.

Below the fields, there is a tip: 'Tip: Name your transition as an action people take to move an issue, like "start work" or "merge".'

The screenshot shows the 'Create transition' dialog box with the following configuration:

- From statuses ***: A dropdown menu with the text 'Open'.
- To status ***: A dropdown menu with the text 'In Progress'.
- Name ***: A text input field with the text 'Start Work'.
- Buttons**: 'Cancel' and 'Create' buttons.

Below the fields, there is a tip: 'Tip: Name your transition as an action people take to move an issue, like "start work" or "merge".'

Make work flow your way

Workflows represent your team's process and control how people progress your project's work.

Here, you can add statuses, which appear as drop zones for the cards on your project's board. You can create pathways between statuses called transitions, and automate repetitive actions using rules.

Select a status to reveal more details.

Add rule

Search rules

Rules streamline your team's process by limiting when your team can use a transition or by automatically performing an action when they do. [Learn more](#).

Restrict transition

Request input

Validate details

Perform actions

Ensure that a work item has been through a specific status when moving a work item.

Validate that parent work items are in a specific status

Validate that people have a specific permission

Workflows DRAFT

FSP1: Software Simplified Workflow Scheme

Add Workflow Switch Scheme

Workflow	Work Types	Actions
Software Simplified Workflow for Project FSP1 (View as text / diagram)	Bug Task Sub-task (Assign)	Edit workflow Remove workflow
classic default workflow (View as text / diagram)	Epic (Assign)	Edit workflow Remove workflow
Software Simplified Workflow for Project FSP (View as text / diagram)	Story (Assign)	Edit workflow Remove workflow

C. Publish and associate workflow with a project.

Steps:-

1. Click **Publish**.
2. Go to **Projects**.
3. Open your project.
4. Open **Project Settings**.
5. Select **Workflow**.
6. Click **Associate Workflow**.
7. Select your workflow.
8. Click **Apply/Save**.
9. Test the workflow.

Output:-
